

Welcome to the Spring Term. Just to let you know a little of what your child will be learning about...

Year 5 Newsletter

Year 5 Team:

Mrs Tattersdill, Miss Jones, Mrs Lindridge-Green, Mrs Hall, Miss Bredbere.

Spring 2022

English

A lot of our written work this term will be linked to our topic including descriptive report writing, historical recounts and mnemonics. We will also be looking at 'Moon myths' from other cultures as well as creating some poetry. The Jamie Drake Equation is our new Vipers book to link with our topic.

Children are still encouraged to read daily at home and spellings are given on Spelling Shed every week in preparation for a test on Friday. Your on-going support with this is much appreciated.

PE

P.E. is on a Tuesday again this half term. Children will be doing netball and dance led by Mr Burke. Please ensure that your child comes to school in a P.E. kit and appropriate footwear for every lesson.

Year 5 classes will also be having a 2-week block of daily swimming (5T starting 7th Feb, 5JL starting 28th Feb).

PSHE/RSE

We will be discussing healthy food choices and then learning about gender and racial discrimination. The second half of the term we will be making links between physical, mental and emotional health. We will be developing communication and listening skills and recognising the importance of using them. All work is at an age appropriate level and handled sensitively.

Article 29

Your education should help you use and develop your talents and abilities. It should also help you learn to live peacefully, protect the environment and respect other people.

We are looking forward to a busy few weeks and hope that your child enjoys our topic links this term. Please don't hesitate to contact us if you have any queries.

Stargazers.

Art & DT

We will be designing and making a spacecraft using our learning and also looking at the phases of the Moon.

French

We shall be continuing to develop 'every day' vocabulary.

ICT

Exploring the program 'Tessellations' (geometry and art) and improving word processing skills and using Publisher.

RE

We will be looking at beliefs and practices in Islam and then the Easter Story.

Music

Listening to and examining songs and music about space and thinking about the reasons for their composition. (Holst – The Planets)

Numeracy

This term we will be learning about formal methods of multiplication and division. We will also be exploring fractions, decimals and percentages and will continue to consolidate previous learning objectives. Please continue to help your child learn their multiplication tables by heart as this has a big impact on progression.

Science

We shall be learning about the solar system: geocentric and heliocentric views, the planets and the movement of the Earth, Moon and Sun.

Geography

We will be recognising and describing physical and human features of the planets of our Solar System.

History

We will be learning about the Moon landing, Galileo, Copernicus, Ptolemy and Aristotle and their theories of the different models of the Solar System.
