

**2023-2024**

**What are we doing to improve  
our school this year?**

### **Leadership and Management**

Mrs Carlton and Mrs Clift will work hard with all members of Bewley staff including our school governors to encourage them to be the best that they can be so that we can be too!

### **Behaviours and Attitudes/Personal Development**

As a Gold Rights Respecting School, we need to make sure that this remains an important part of our school curriculum. The school council will make sure that our rights are heard and actioned.

We will continue to develop friendships, talents, abilities, and interests by offering a wide variety of trips, visitors, experiences after school clubs.

We will develop leadership opportunities in school through roles of school councillors, playground friends leaders, digital leaders, Reading leaders, Y6 Leadership Team, House captains and prefects.

We will work hard to ensure that everyone knows how to manage their feelings and behaviour. We will continue to work on developing our resilience by supporting each other with mental health and wellbeing. This will be done through our PHSE lessons and work with The Trail Blazer Team. Each class will have a worry monster and calm box to help us manage our feelings.

We will work together to embed our Healthy Schools award. We will do this by learning about ways to become healthier. This will include exercise, eating and wellbeing.

### **Quality of Education**

Teachers are helping you to learn new vocabulary in your lessons. This will help you to understand new learning.

Our EYFS and Year 1 children will be taught how to read using Read Write Ink phonics.

Teachers will work hard to develop exciting and meaningful learning. They will help you to learn more, remember more so that you can do more.

To include our Bright Proud and Successful motto in our learning and in all that we do at Bewley.

We will be working on assessments to find out how your learning is going so that we can help you achieve greater things.
